

Yuxuan Li

yxli22@mails.tsinghua.edu.cn | Qiuzhen College, Tsinghua University

Research Interests

Stable homotopy theory, Adams spectral sequences, and equivariant and motivic homotopy theory.

Education

Tsinghua University, Ph.D. in Mathematics, expected in 2030

June 2026 – present

Tsinghua University, B.S. in Mathematics

June 2022 – June 2026

Publications and Preprints

- Runji Li and **Yuxuan Li**. *The Adams differentials on the e -family*. *Proc. Amer. Math. Soc.* **154** (2026), no. 11, 4975–4988. doi:10.1090/proc/17823. arXiv:2602.20184.

Talks and Lectures

- *Stable Model Categories, SM7 Revisited*. One-hour lecture at the IWoAT Summer School 2026: Stable Homotopy Theory, AMSS, Chinese Academy of Sciences, Beijing, August 11, 2026.

Honors and Awards

- Silver prize in Geometry and Topology, S.-T. Yau College Student Mathematics Contest, 2023
- Qiuzhen First-Class Scholarship, 2024
- Silver prize in Geometry and Topology, S.-T. Yau College Student Mathematics Contest, 2024
- Bronze prize in Team Competition, S.-T. Yau College Student Mathematics Contest, 2024
- Tsinghua University Scholarship, 2025
- Undergraduate thesis award, 2026

Seminars Attended

- Seminar on Geometry, Topology and Mathematical Physics supervised by Shing-Tung Yau
- Seminar on the Telescope conjecture instructed by Guchuan Li
- Seminar on Stable homotopy theory instructed by Dan Isaksen
- Tsinghua Xuetao program seminar on étale cohomology, organized by Lin Chen

Conferences and Workshops Attended

- International Consortium of Chinese Mathematicians, 2023 and 2026
- International Congress of Basic Science, 2023–2025
- IWoAT summer school on motivic homotopy theory, Fudan University, 2024
- IWoAT special international conference in honor of Prof. Peter May, SUSTech, 2024
- Workshop: *stable homotopy groups of spheres, where to now?*, Tsinghua Sanya International Mathematics Forum, 2025
- Conference on motivic homotopy theory, University of Regensburg, 2025
- IWoAT summer school, Westlake University, 2025
- IWoAT international conference, Zhejiang University, 2025
- Conference Higher Invariants: interactions between arithmetic geometry and global analysis, University of Regensburg, 2025
- Machine Computation in Homotopy Theory, ICERM, 2026
- International Congress of Mathematicians, Philadelphia, 2026
